In this it will be seen that Dr. Olds is convicted by his own friends of discouraging enlistments, and opposing the Government. Let the loyal people put Olds and Vallandigham together and sink them both into the pit of eternal political infamy.

Knoxville Captured. Gen. Burnside has captured Knoxville, East Tennessee, and the long-de layed deliverance has at last come to that suffering and devoted people. With him goes Parson Brownlow, the bold defier and earnest buter of rebels and rebellion, to establish a new journal in his old home.

Genuine Butternut Platform. The Union as it was under Buckanan; the Constitution as it is under Jeff. Davis .- N. Y. Herald.

Those who have observed closely the copperhead leaders of this county have noticed a marked change since the fall of Vicksburg and the splendid Federal successes of July. Knowing that the cause of the rebellion is hopeless, and that their cause is identified with that of the rebellion, their bitterness and desperation has increased day by day. Each of these men is a walking political thermometer, indicating the temperature of the rebel cause, in whom the mercury of hope rises or falls with the fortunes of the rebellion. From the constant threatening of Union men and the mobbing of a loyal journal, they have gone on growing desperate with their cause, until we find them arraying themselves against the church of Christ, insulting and reviling His ministers and desecrating His holy Sabbath. As a legitimate result, the true men have been driven from their party. All the more desperate and bitter for this, they resort at last to deliberate lies and slanders, and join in a most malignant and infernal effort to convince the members of their party that the friends of the Union desire the destruction of their property.

To this end, the Eagle of last week publishes the following malicious lie concerning our action at the late fire, In all probability it was invented by the editor himself while he stood by and saw us making every effort to save the property of men of both parties.

And not only the feeble and sicklyminded editor of the Eagle, but all those men, some of them claiming to be high minded and honorable, who use it about the street, are falsifiers and slanderers. We (Palmer's Division) left our camp at Manchester on the morning of the 16th, and many were the rumors July : and opinions as to our destinationsome supposing we would go to Mc-Minnville, and thence across the mountains into East Tennessee; others thought we would never be able to write our friends from the only "Sebastopol" now held by the enemy in this State - Chattanooga. But contrary to surmises, we struck out in an easterly direction toward the mountains. Our first day's march of fourteen miles was very fatiguing on the boys on account of the excessive heat of the sun, although we marched very slow and had frequent rests. We went into camp about 5 o'clock. This day's march brought us into a beautiful rich valley, which possesses some of the finest farms we have seen in this portion of the State.

A portion of the ground over which we came on the 16th was very rough and on the morning of the 17th, our regiment received orders to go back and assist the wagon train. The wagons were loaded with ammunition and supplies principally, and numbered near four hundred. After an unnecessary amount of yelling, whipping and cursing of the poor mules, the the liberation at last of the loyal and the building of Mr. Wright, who is as soldier thereof, and of Freedom, banished without a soldier thereof wi by this time had got several miles the start of us. We marched this day (the 17th) 27 miles, which brought us to the foot of quite a lofty spur of the Cumberland mountains. We bivouaced on the side of the hill for the night, having done a pretty good day's work,-marched 27 miles, besides the labor of assisting the wagons.

On the morning of the 18th we again started at sunrise to overtake train of wagons to pass our march was essarily slow; so much to our impediment were they, that we did not join our brigade until evening, when exercises were conducted by President we went into camp having marched Merick of the Ohio Wesleyan Uni- 19 miles.
